

Construction Inspectors/Resident Engineers – NICET Certified or Professional Engineers

Boswell Engineering is seeking candidates with all NICET Levels II, III and IV, NACE Levels and SSPC Levels for positions expected to begin immediately for multiple projects located in New Jersey.

Responsibilities:

- Perform on-site inspection of various heavy highway and/or bridge rehabilitation/replacement, paving projects, and drainage projects.
- Daily inspection efforts on multiple complex, large, and/or diverse projects in order to ensure contractor's operations comply with project plans, specifications, and contract documents.
- Complete daily inspection reports.
- Prepare sketches and assemble data for Field Engineer to utilize when making changes to the project.
- Assist Resident Engineer and Office Engineer in keeping track of pay items, MPT compliance, site safety, contract specific requirements, and reporting any deviations.
- Assure general compliance with State or NJ Turnpike Authority standards and specifications.
- Combination of both office and field duties.

Qualifications:

- High School Diploma or equivalent required. Associates or bachelor's degree in Engineering Technology or related field preferred.
- Two (2) to five (5) years of experience for a Construction Inspector.
- Ten (10+) years of experience for a Resident Engineer.
- Valid NICET Certification II or higher or equivalent as required by the client.
- ACI Field Technician Level 1 a plus!
- Traffic Control Certification is preferred.
- NJSAT – Asphalt Paving Construction Technologist Certification is required.
- Ability to read and understand plans/specifications and properly document collected data.
- Must pay attention to detail.
- Working knowledge of Microsoft Office Programs.
- Must possess a valid driver's license and reliable transportation.
- NJ Turnpike Authority experience preferred.
- Night and/or weekend work may be required and must be reliable and flexible.
