

Our Site/Civil Department is seeking an Engineer for immediate employment at our northern New Jersey office. We are seeking a highly motivated, energetic, and professional individual with strong technical and communication skills.

Responsibilities:

- Design and oversee design including layout, grading, drainage, infrastructure, erosion and sediment control, from commencement to completion.
- Design stormwater management with expertise, low impact design, hydrologic/hydraulic analysis and design, stormwater quality design and preparation, and design which includes preparing NPDES permit applications.
- Ability to mentor staff engineers.

Qualifications:

- Bachelor's degree in Civil Engineering, Master's degree a plus.
- Valid New Jersey Professional Engineering license required.
- 10+ years' experience in related site/civil land development engineering.
- Knowledge of local City, County and State land use processes and regulations.
- Expertise in all aspects of land development engineering including the integration of surveying and environmental engineering.
- Strong attention to detail with excellent analytical and judgment capabilities.
- Excellent verbal, presentation, and written communication skills, and the ability to work independently.
