

Job Description

PE Municipal Project Managers & Municipal Engineers (EIT or PE)

At Boswell, we understand the significance of our work and its impact on society. Therefore, we deliver on-demand, sound, and state-of-the-art integrated engineering solutions to satisfy the complex needs of the sectors we serve.

Due to continued growth, as we celebrate 100 years of Engineering Excellence, Boswell Engineering is seeking skilled Professional Engineers (PE) with Municipal Project Management experience as well as Junior to Mid-level Municipal Engineers. Immediate answers/ consideration: go.annie@rocketmail.com

PE-PM Responsibilities include:

- Attend meetings of the municipal governing body and other municipal officials as required including Land Use, Zoning and/ or Planning Board
- Familiarity with the Municipal Code of various municipalities for the purpose of reviewing and evaluating Municipal Development Applications
- Provide excellent Client Service including project meetings, monthly status reports, delivery of projects on time and within budget
- Knowledge of applicable local, county, and state stormwater management and soil erosion standards
- Analyze engineering sketches, drawings, specifications, plans, and related data
- Coordinate activities related to technical developments, scheduling, and resolving engineering design and construction issues
- Review project shop drawings
- Assist in the preparation of proposals, establish project budgets and construction cost estimates, and monitor daily progress through project close, and projects from beginning to end

Municipal Engineer Responsibilities include either performing or learning all of the above.

Qualifications:

- Bachelor's Degree in Engineering (Civil, Environmental, Construction or similar)
- Certified Municipal Engineer (CME) preferred, but not required
- **For PE PM:** 5+ years professional experience in NJ municipal engineering including Land Use, Zoning and/ or Planning Board participation as well as expert witness testimony
- **For Municipal Engineer (EIT or PE):** 2+ years in engineering design and/ or construction for municipalities in NJ
